

The image shows the interior of a restaurant, Hawksmoor in Edinburgh. In the foreground, a large, round wooden table is set for dining. It features a central circular inset with a polished, golden-brown surface. On this inset sits a small potted plant with green leaves in a rustic, copper-colored container. The table is surrounded by dark leather chairs. Several wine glasses, water glasses, and salt and pepper shakers are placed around the table. In the background, a large, multi-paned wooden door or window looks out onto a city street. The walls are light-colored and decorated with several small, framed pictures. A dark wooden coat rack stands to the left of the door. The overall atmosphere is warm and sophisticated.

“Flawless. The best steak you’ll
find anywhere.”

THE TIMES

Hawksmoor was inspired by childhood memories of how good steak could taste. Founders Will Beckett and Huw Gott (friends since they were 11) opened the first Hawksmoor restaurant on Commercial Street in 2006; more restaurants in London, Manchester, Dublin, Chicago and New York followed.

Our menus revolve around using the best ingredients we can find and cooking them as simply as possible – whether it be beef from grass-fed native breed cattle, sustainable seafood from around the local coast, seasonal fruits and vegetables or great British cheeses, combined with great wines and interesting cocktails all served by people who love what they do.

EDINBURGH

Hawksmoor Edinburgh is located in the beautiful former National Bank of Scotland Banking Hall, a Grade A listed 'building of national importance', a short walk from Waverley station, Princes Street and just off St. Andrew Square.

The 165 cover restaurant features two private dining rooms that can accommodate groups of 13 and 48. Both spaces are private, whilst looking into the restaurant, and ideal for any type of intimate gathering and larger event.

The menus draw on the most seasonal and sustainable produce that Scotland has to offer, featuring seafood from around the Scottish coast and beef from grass-fed native breed cattle from both sides of the border.
